Web Development

App Development

SATHISHKUMAR N
Full Stack Web Developer

Having 2+ years of experience in Web development with good knowledge of developing Website.

WORK EXPERIENCE

Senior Web Developer
RealTech GPS Private Limited

01/2022 - Present   *Erode*

Achievements/Tasks

- Created a web page with HTML, CSS, Bootstrap and Javascript, which demonstrated the use of nested functions, control flow, and loops.
- Implemented a web API in PHP for a RESTful API for file I/O, which allows uploading, downloading, and deleting files in a cloud database, with a Postman tool to test the API.
- Built a RESTful API using PHP to provide a service to the front-end, where via AJAX the website would be able to display the contents of the database without refreshing the page, and allow the user to add and remove certain content to the page.
- Optimized MySQL databases for web applications improving data retrieval time.
- Increased the website's performance by 40%. • I am proficient in developing responsive and user-friendly websites using popular framework Bootstrap.

PERSONAL PROJECTS

Government Panel
- Tracking and monitoring government corporation vehicles and generating all type of reports based on GPS device.
- Project on a web panel for the user restrictions based on viewing their vehicles, generating the reports and display the current position of the vehicle using google map library.
- Builded a driver,vehicle details and all other entry details with complete validation on user inputs of each field in a form using Boostrap.
